“ What I remember most is Kaylee may have been frustrated at times with her gamier but you found tell she was proud of them. She could easily tell you of how proud she was of what all her mother did in helping run a business and managing a family. She thought Brittany was so much smarter than herself and especially loved how good she was at photography. Her Bubba was just the best in her eyes. She felt so blessed that her Step dad's family was so good to her. And as said before she loved Caden and Khloe beyond measure. She was a joy and a delight that could also be a handful at times but she was a lover at her core. I'm so sorry.
