“ I will never forget the summer of 1958. I don't know how she did it but Nora talked our Dad (Robert Rackler) into letting her take a job as a carhop at a little hamburger joint on Lancaster Road. (She was 15 years old.) Nora worked all summer and saved every paycheck plus all of her tips. Our family had very little money to meet our everyday living expenses and very little to purchase new school clothes.

Nora showed me how much money she had been able to save during the summer; I thought she was wealthy. She told me that she was going to buy schools clothes with her money. I was so proud of her and told her that she would be able to purchase quite a few nice things with her money. But she told me, "No, I'm not going to buy school clothes, WE are going to but school clothes." I started to cry.

That very next week Nora and I went shopping for new school clothes. She split the money equally with me and both of us were able to buy four outfits apiece. This was the first time I had new school clothes to wear to school. That was Nora; that was my big sister. We have shared memories like this our whole life; too many to mention, from our childhood into adults. Some memories we would remember and laugh or cry and some we have only between the two of us.

I will miss my big sister but our memories and love for each other will last forever.##imported-begin##Mary (Rackler) Ray##imported-end##
