Nursing Homes have never been a place you want to send a Loved One to so we all must be the change. We challenge everyone to pick a local State Supported facility and do a walk through just to see the living conditions of our Loved Ones that require extra care. Their basic wants and needs are being ignored and not being met because of the Staffing Turn-Over and Shortages occurring everywhere. Sick people get sicker even with a family advocate begging for someone to just do their job. In just barely over 5 months Sheila lost her will to live because her condition worsened and no one took action until near the end. COVID-19 alone was not the culprit but it is being used as

an excuse and I will not let her suffering be in vain.
